Computational detection and understanding of empathy is an important factor in advancing human-computer interaction. Yet to date, textbased empathy prediction has the following major limitations: It underestimates the psychological complexity of the phenomenon, adheres to a weak notion of ground truth where empathic states are ascribed by third parties, and lacks a shared corpus.

But, I heard that TERF is a slur! The TERF is a slur meme is a way for TERFs to simultaneously attack and dismiss critiques of their ideology and behavior. Recently, a cisgender feminist used the term TERF and was immediately attacked "not for the observations she actually made" but for daring to distinguish between radical feminists and TERFs.
