

leading innovation creating workplaces pdf

Innovation can be simply defined as a "new idea, creative thoughts, new imaginations in form of device or method". However, innovation is often also viewed as the application of better solutions that meet new requirements, unarticulated needs, or existing market needs. Such innovation takes place through the provision of more-effective products, processes, services, technologies, or business ...

Innovation can turn new concepts into realities, creating wealth and power. For example, someone who discovers a cure for a disease has the power to withhold it, give it away, or sell it to others. 1 Innovations can also disrupt the status quo, as when the invention of the automobile eliminated the need for horse-powered transportation.
