Autism spectrum, also known as autism spectrum disorder (ASD) or autism spectrum condition (ASC), is a range of neurodevelopmental disorders that includes autism and related conditions. Individuals on the spectrum present with two types of symptoms: problems in social communication and social interaction, and restricted, repetitive patterns of behavior, interests or activities.

Autism spectrum - Wikipedia

Autism is a developmental disorder characterized by troubles with social interaction and communication, and by restricted and repetitive behavior. Parents usually notice signs during the first two or three years of their child's life. These signs often develop gradually, though some children with autism reach their developmental milestones at a normal pace before worsening.

The honor Micah deserves for putting his body in the path of violent prejudice is his and his alone. But we should also acknowledge Micah as an Autistic man, because in doing so we can help to dispel the myths and stigma that challenged him and all of us in growing up in a world that is too willing to define Autistic life in terms of fear or pity and never in terms of virtue.
