Climate change adaptation and mitigation

Enabling environments for climate-smart agriculture (CSA) are the framework conditions that facilitate and support the adoption of climate-smart technologies and practices. They include policies, institutional arrangements, stakeholder involvement and gender considerations, infrastructure, insurance schemes, as well as access to weather information and advisory services.

Enabling environments | Climate-Smart Agriculture Guide

The climate has always been changing but the pace is now faster than humans have ever seen. Climate change threatens to make parts of the planet uninhabitable or inhospitable for life as we know it while worsening poverty, swamping coastlines and destroying infrastructure.
