A Guide - Determining Yield Losses from the BYD in Wheat and Barley 1) Symptoms in barley " we are seeing extensive yellowing of leaves that are consistently and uniformly distributed throughout the affected fields.

### **Determining Yield Losses from the BYD in Wheat and Barley**

Most varieties of barley, some of oats, and all varieties of rye escape considerable damage because of their early maturity as compared with wheat. Stem rust sometimes injures barley seriously. Leaf rust is not usually serious but is sometimes locally destructive on spring barley. The stem and leaf rusts do not cause serious losses in rye.
